25X1

1. The Transformatorenwerk "Karl Liebknecht" in Berlin-Oberschoeneweide, has been manufacturing high-voltage switches, and current and voltage transformers. Production is to be suspended for lack of orders. The drawings and data have been delivered to the other satellites in accordance with trade agreements, and now these countries build this equipment for themselves.
2. On the ground of alleged important shortages, it was ordered that the plant should work on New Year's Day until late in the evening. The employees rebelled, however, and only the union leaders and higher Socialist Unity Party (SED) people worked.
4. The polyphase transformer [redacted] is being designed and will be built for delivery to the Soviet Union. Rostock will be the delivery point. 25X1
